

Aircraft Registration in the Isle of Man

Introduction

The Isle of Man Aircraft Registry was established in 2007 for the registration of high quality private and corporate aircraft and is the largest dedicated corporate aircraft register in Europe.

All Isle of Man aircraft carry the prefix 'M' on their registration and this is followed by four discretionary characters which allows owners to personalise their registration. Additionally, and unlike most other registries, the Isle of Man allows aircraft owners, if they so desire, to transfer their registration from an existing aircraft to a new aircraft.

The Registry is proud to have gained an international reputation for its efficient and customer focused quality service, and has a lower scheme of charges compared to its competitors.

Benefits of Registration in the Isle of Man

- high service levels
- high regulatory standards
- favourable tax regime and zero corporate tax

- European time zone
- competitive charges
- registration of mortgages on aircraft
- no insurance premium tax

Aircraft registered in the Isle of Man cannot be used for Commercial Air Transport, but airliners that are not being operated commercially (parked or between leases) are regarded as 'private aircraft' and can be registered in the Isle of Man.

Fedelta, together with its professional associates, is able to provide the necessary structuring to enable the purchase of an aircraft in an efficient manner and can also provide other complementary services such as:
